Office of Legislative Counsel

Monday - 5 October 1953

- - - -

1. The DCI and senior members of his staff debriefed Sen. William F. Knowland (R., Calif.) following the latter's return from his round the World trip. In addition, in a private session, the DCI briefed Sen. Knowland, a member of the Joint Congressional Committee on Atomic Energy, on the latest Soviet atomic developments. Senator Knowland admired a map in the DCI's office and we have agreed to install one in the Senator's office for him. The Senator has certain documents on the Indo-China situation which he has promised to make available to CIA through my office as soon as he can spare them. The DCI also has some documents which he wishes to have returned to the Senator.

25X1

3. Senator Potter, of the Senate Investigating Subcommittee, is starting hearings on Korean atrocities on 6 October.
